

ТОП-10
статей дослідників ХНУРЕ
з найбільшою кількістю переглядів на ScienceDirect
за вересень 2026 року

Data Set Most viewed publications published by authors from KhNURE
Entity Kharkiv National University of Radio Electronics
Date Range September
Publications included Published last 5 years
Data Source ScienceDirect

No	Title	Authors	Year	Journal	Downloads
1	Potentiostat design keys for analytical applications View	D. Snizhko et al.	2023	Journal of Electroanalytical Chemistry	91
2	Resilient cloud cluster with DevSecOps security model, automates a data analysis, vulnerability search and risk calculation View	T. Radivilova et al.	2024	Alexandria Engineering Journal	57
3	Why do women pursue a Ph.D. in Computer Science? View	O. Yeremenko et al.	2026	Journal of Systems and Software	46
4	Improving procedures for evaluating expanded uncertainty at measuring instruments calibrating View	I. Zakharov et al.	2025	Measurement: Sensors	29
5	Robust CFAR detection under compound masking effects via scale-decoupled adaptive fractional Hölder estimation View	M. Kaliuzhnyi et al.	2027	Signal Processing	21

6	Adaptive detectors for mismatched subspace target in clutter with lognormal texture View	M. Kaliuzhnyi et al	2024	Digital Signal Processing	20
7	Adaptive polarimetric persymmetric detection for distributed subspace targets in lognormal texture clutter View	M. Kaliuzhnyi et al	2025	Digital Signal Processing	16
8	From photon emission to pixel intensity: Workflow-dependent signal formation and calibration in imaging-based electrochemiluminescence View	K. Muzyka et al.	2026	Journal of Electroanalytical Chemistry	13
9	A radar pulse train deinterleaving method for missing and short observations View	M. Kaliuzhnyi et al	2023	Digital Signal Processing	12
10	Numerical simulation of warhead transportation View	K. Avramov et al.	2021	Defence Technology	11
